

2024

PRICE CHART

On-location architectural photography services, taking into account the equipment and deliverables below mentioned:

Service Description	Price (USD)
Half-Day Shoot (up to 4 hours)	\$1,500
Full-Day Shoot (up to 8 hours)	\$2,800
Additional Hour (beyond full-day package)	\$350/hour
Post-Processing and Editing (per photograph)	\$50/photo
Drone Photography (per session)	\$500
Aerial Video Footage (per session)	\$800
Video Footage (per hour)	\$400
Travel Expenses (if applicable, per diem and transport)	
Accommodation (if required)	

Notes

A) The pricing is based on the assumption of using state-of-the-art equipment including Sony Alpha R7V camera body with Sony G Master native lenses for photography and DJI Mavic 3 for drone footage.

B) Post-processing and editing are priced per photograph selected by the client from thumbnail previews on contact sheet.

C) Prices are valid for 30 days from the issuance of this proposal.

D) Staging responsibility is on the client, and any local regulations or permits are the client's responsibility.

E) Excludes portrait photography and the use of continuous or speed lights on location. Please contact directly for portrait projects.

F) 20% mobilization deposit required upon service agreement signature.

“Photography is more than capturing moments; it's the art of revealing stories unseen, crafting narratives that resonate beyond words, and illuminating the essence of the human experience through the lens”

Yoann Plourde B.Sc. M.Arch
Image Architect & Visual Storyteller
